## Clinell Clinell Hand Sanitising Gel

Clinell Hand Sanitising Gels contains a unique formula which combines a unique blend of 70% alcohol (WHO recommended) and moisturisers providing a superior level of effectiveness against germs. The formulation also contains high levels of glycerin and aloe vera which helps to moisturise and condition the skin, preventing the dry, cracked hands so often associated with other alcohol gels.

- 250ml GHG000

## Kerr Optiview

OptiView is an innovative lip and cheek retractor that is designed to provide even retraction of lips and cheeks for great buccal and gingival access at the same time. Thanks to its anatomical shape, OptiView offers patient comfort even during longer dental treatments. The anatomical-shaped lip holders with opening for the frenulum guarantee wearer comfort. The lateral flaps gently hold the cheeks and facilitate removal of the product. Frames and cushions are autoclavable at 134°C for at least 3 minutes.

## LM Instruments

### Sharp Diamond Dual Gracey

LM Sharp Diamond instruments are completely sharpen free. These instruments are made from exceptionally durable special metal alloy, and its wear resistance is enhanced by a protective micro membrane coating. Sharp Diamond instruments with LM-ErgoSense handle are especially suitable for clinicians who use hand instruments frequently and want to minimize the time spent maintaining dental instruments. These instruments combine optimal characteristics of superior sharpness, tactile sensitivity and comfort.

## UnoDent

### Instrument Casette Tray

Solid stainless steel. 'Open' style for cleaning and disinfection processes. Shallow depth (15mm) to fit all autoclaves. Easily removed 'clip' for access. Includes 1 blue silicone holder. Size 185 x 60 x 15mm.

|                      |        |
|----------------------|--------|
| Holds 3 Instruments  | GTT300 |
| Holds 5 Instruments  | GTT301 |
| Holds 7 Instruments  | GTT302 |
| Holds 10 Instruments | GTT303 |

## Nichrominox

### Ergo Clip 5

Ergo Clip is the next level up from Flexi Clip, in that the Ergo Clip is a tray in itself, negating the need to use an aluminium or stainless steel tray as well. It has the same central clip to hold the instruments in place but is still very open.

|       |        |
|-------|--------|
| Blue  | GTT212 |
| Green | GTT213 |

## Nichrominox

### Easy Clip 5

Easy Clip has a fixed, hinged, locking arm, so it can never leave the cassette. Moving the arm fully back opens the cassette for easy placement and access of instruments. Then a simple click and your instruments are held in place securely. Made of stainless steel and silicone Easy Clips are electropolished to give bright shiny surface finish. Easy Clips can be used in all washer disinfectors and ultrasonic baths with all known solutions, and then sterilised at 134 degree unwrapped pouched or in full hospital wrap. 5 types are available ( for 3, 5, 10, 15 and 20 instruments)

## Instrument Sharpening Service

At DD, we have a team of friendly qualified technicians that can sharpen or repair your orthodontic instruments in a way that's easy and convenient for you and your practice.

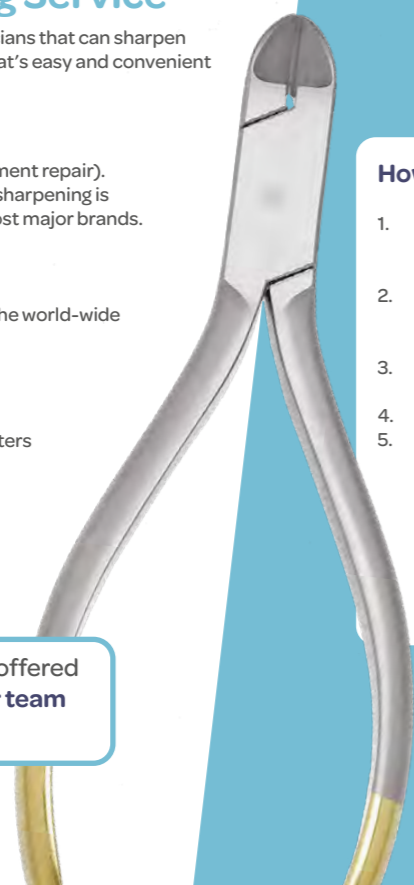

### Our services includes:

- Re-Sharpener and Profiling (splayed instrument repair).
- Re-tipping on a service exchange basis if re-sharpening is not successful, (on a like for like basis) on most major brands.
- Re-shimming of the hinge if required.
- Broken screws replaced at extra cost.
- Re-polishing to a near new condition.
- We repair instruments from the majority of the world-wide Orthodontic instrument manufacturers.

### We offer repair on most types of orthodontic plier including:

- Distal end cutters, ligature and hard wire cutters re-sharpened or re-tipped.
- Bracket and Band removers re-sharpened and delrin pads replaced
- Weingarts re profiled
- Sharpening and Re-profiling £28.00 each
- Instrument Re-Tipping £45

For more information on the service offered please call the **DD service and repair team** on **01253 600090** (option 1).

### How to use our Instrument Sharpening Service:

1. On the DD website search for '**Orthodontic Plier Sharpening Service Pack**' or **click / scan the QR code** on this page or just search **911112**.
2. Then **add the pack to your basket** and complete the checkout process (spend over £40 in your DD basket to avoid a delivery charge for the pack)
3. We'll then you a **send a prepaid envelope** to put your instruments into (send as many as you like)
4. Pop your pre-paid envelope in the post.
5. Your sharpened / repaired instruments will be **returned to you within two weeks**

Just scan the QR code with your phone or click to go to the Orthodontic Plier Sharpening Service Pack on the DD website.

## Hu-Friedy Implant Maintenance Starter Kit

Implacare II scalers, Hu-Friedy's latest development in implant maintenance, provide thinner working ends and new designs that allow you to better adapt to and effectively scale implants while causing the least amount of alteration to implant abutment surfaces. Made of PLASTEEL: A high grade, unfilled resin that causes the least amount of alteration to implant abutment surfaces. 20% thinner tip design: Allows for improved access to implant abutment surfaces and allows for more effective maintenance and care of implants. Two NEW universal curette designs: The Barnhart 5/6 and Langer 1/2 join the Columbia 4R/4L, 204S, and H6/H7 to provide a well-rounded set of options so you can select the instrument best suited for each patient's needs. Starter kit includes: Implacare II (1 scaler handle, 1 set of 204S scaler tips, 1 set of H6/H7 scaler tips, 1 set of Columbia 4R/4L tips, 1 set of Langer 1/2 tips, 1 set of Barnhart 5/6 tips), Colorvue Probes (1 Colorvue probe handle, 1 set of PCV11 tips, 1 set of PCV12 tips, 1 set of Williams tips, 1 set of UNCT2 tips) IMPCKITII. **DCP566**

**204S Refill Tips**     **DCP565**

## Hu-Friedy Implacare Handle Satin Steel

Handle Only IMPHDL6  
**DCP555**

## Kerr Implant Deplaquers

Implant Deplaquer instruments are made of carbon-fiber reinforced plastic material, with sufficient strength to remove plaque and calculus from the implant neck while minimising scratches on metal surfaces. Specially shaped blade allows implants to be cleaned from all sides. Adapted to the rotary symmetrical design of all important implant systems.

Universal 1351      DCP510  
Orofacial 1361      DCP508

## Hu-Friedy Titanium Implant Scaler

Hu-Friedy's new, state of the art line of Titanium Implant Scalers. Made from the same titanium alloy as implants and abutments, these scalers are expertly designed and manufactured for implant maintenance, debridement, biofilm removal and can be used both Supra and Subgingival.

## UnoDent Plastic Implant Scaler DE

Autoclavable. Set 4.  
**DCP600**

## Kerr Hawe Implant Paste

Paste containing Aluminium Oxide. This special prophylaxis paste is developed for the efficient and gentle maintenance of implants. With a pleasant, fresh mint taste and fluoride-free, this pumice-free paste is ideal for application following the use of implant deplaquers to eliminate biofilm deposits. The selected formulation and the low RDA of 10 enable regular cleaning of the implant surface without scratching it. The result will impress even the most demanding professionals, as use of the paste results in a clean implant surface, so slowing down attachment of new deposits and aiding implant longevity. 45g.

**KGP020**

**Fluoride-free, Low  
RDA value (<10)  
& Pumice-free**

## Hu-Friedy Arkansas Sharpening Stone

Fine Grit, restores the cutting edge on dull instruments. Lubricate stone with oil.

Prevents condensation on mouth mirrors. 50ml.

DMS000

## Hu-Friedy Diamond Sharpening Card Set

A uniform coating of industrial diamonds bonded to high quality stainless steel provides an extremely hard, flat surface for instrument sharpening. Available in three grit levels to satisfy sharpening needs from regular maintenance to reconditioning. Durable surface resists grooving and ditching; remains flat after repeated use and will not break or shatter if dropped. Easy clean-up via ultrasonic cleaner and steam sterilization. No oil lubrication needed for sharpening procedures. Thin credit-card size shape allows sharpening cards to readily fit into sterilization pouches or cassettes with procedural set-ups.

DDH002

## Hu-Friedy Sidekick Sharpening Kit

The Hu-Friedy Sidekick® Sharpener makes routine maintenance sharpening of scalers and currettes fast and easy. This straightforward device guides you and your scaler to sharp, consistent results time after time. Easy to use guide channels allow simple positioning of scalers and currettes, providing consistent sharpening results every time. Toe Guide allows for finishing sharpening of universal and Gracey currettes. Reciprocating stone does the work of sharpening so you don't have to. Replacement stones available in Coarse and Medium grits. Cordless, lightweight and portable sharpening can be used anywhere by any staff member. Contains: Sidekick Unit, Medium Grit Ceramic Sharpening Stone, Plastic Test Stick, Magnifying Len, 2 AA Batteries, User Manual and CD-ROM.

## Handpiece Repairs Made Easy

With over 70 years combined team experience in handpiece repair and servicing, DD's quality promise is stronger than ever. Alongside standard cartridge replacements and handpiece, motor and sonic scaler repairs – there's also the option to upgrade to DD's three service options, including our Premier Refresh Plan – which uses only original manufacturers parts.

### ✔ Choose DD

DD have 65 years combined team experience in repairing and servicing handpieces.

### ✔ Supplier approved

We have been approved by leading handpiece manufacturers.

### ✔ Service plans

We offer a range of service plans to suit your needs.

### ✔ Free quotation

Free quotation on repairs, with no inspection charge if the quote is refused.

For more information on the service offered please call the **DD service and repair team** on **01253 600090** (option 1).

Extreme Versatility. All-in-one – Stylish  
compact all-in-one unit for Periodontic,  
Endodontic, Scaling, MI applications and  
Implant maintenance. Convenient large  
capacity bottles of 400ml of the same  
solution each or different solutions with  
independent pumps. The all new Varios  
features the latest developments in piezo  
technology; The iPiezo engine from NSK  
assures stable output by automatically  
adjusting to the optimum frequency  
depending on the loading of the tip.

QSN018

Portable

## Dentsply Sirona Cavitron Select Scaler with Reservoir (90115UK)

Cavitron Select is the first portable Cavitron with a self-contained water reservoir. Compact, portable unit with 25kHz technology. You can scale with this unit virtually anywhere you have a power source. This is what makes the Cavitron Select so easy to use.

QSD012

Portable

## Dentsply Sirona Cavitron Select SPS Scaler Without Reservoir (81305UK)

The Cavitron Select SPS ultrasonic scaler is a compact, portable unit that incorporates a self-contained reservoir with the unique Sustained Performance System (SPS) technology. This practical design delivers 30KHz oscillating scaling power without the need for a dedicated water line - all you need is a power supply.

QSD017

Portable

## Dentsply Sirona Cavitron Plus 30K - Tap-On Technology Unit (8184003)

The Cavitron Plus with new Tap-On Technology which keeps many popular features but also has some new, welcome additions:-

Tap-On Foot Pedal: To reduce leg and foot fatigue, the foot pedal can be tapped to activate, then the foot can be relaxed during the procedure (taken off the foot pedal) and then tapped again to deactivate.

Turbo Mode: When the TURBO button is pressed, power increases by up to 25% over the Boost mode. The TURBO power remains on until the button is pressed again.

Finer Water Flow Control: more precise flow direction and improved lavage.

QSD036

## Dentsply Sirona Cavitron Jet Plus - Tap-On Technology Unit (8187503)

The Cavitron Jet Plus with new Tap-On Technology which keeps many popular features but also has some new, welcome additions:-

Tap-On Foot Pedal: To reduce leg and foot fatigue, the foot pedal can be tapped to activate, then the foot can be relaxed during the procedure (taken off the foot pedal) and then tapped again to deactivate.

Prophy Auto Cycles: It automatically cycles between air polish and rinse without pumping the foot pedal. Choose short, medium or long prophy cycle times. Tap-On Technology will activate prophy mode auto cycles.

Turbo Mode: When the TURBO button is pressed, power increases by up to 25% over the Boost mode. The TURBO power remains on until the button is pressed again. Finer Water Flow Control: more precise flow direction and improved lavage.

QSD037

## Acteon Pure Newtron P5 Booster Scaler

For scaling, Endodontics, Periodontic and more. Contains: Slim Handpiece (F12901), 3 x Tips - No 1, 1S and H3, Autoclavable wrench. External dimensions:- 155 x 85 x 175mm.

QSP095

## Acteon P5 Newtron XS Ultrasonic Scaler

The world's best-selling ultrasonic device from Satelec now offers self-contained irrigation providing greater portability, greater power, greater precision. 300ml tank easy to fill even during a procedure. Handpiece compatible with the whole range of Satelec tips.

QSP101

## Acteon P5 Pure Newtron B.LED Scaler

The P5 Newtron is the state-of-the-art ultrasonic unit for improved root canal location, irrigation and obturation along with wide-ranging applications in scaling and non-surgical periodontics. This unit provides the best performance and a wide choice of ultrasonic instruments. The Newtron technology provides a smooth, constant and powerful vibration during treatment. Guided by the Colour Coding System to select the required setting, the power is automatically controlled and adjusted accordingly. Available with and without a LED Handpiece. In addition, this model has the Newtron slim B.LED handpiece: Thinner body, Flexible cord, Titanium inside, Intraoral & Plaque visibility with the light rings, 6 LED's.

QSP105

## W&H Ultrasonic Treatment Unit Tigon+ PA-123

With Tigon+, W&H has developed an ultrasonic treatment unit unlike any other. Its unique features (three modes, large, easy-to-read display, range of tips, etc.) will greatly simplify your daily work. The ultrasonic piezo scaler Tigon+ uses pleasantly warm fluid and prevents irritation, even in patients with sensitive teeth. Five preset programs save you valuable time. Three modes ensure gentle but powerful cleaning. For removing supragingival plaque and subgingival concretions, as well as for endodontic applications and for preparing dental enamel.

QSW155

**W&H  
Pyon 2 with PB-200 LED  
(100-230V)**

The Piezo Scaler with five sterilizable light emitting diodes in the handpiece allows exact working in daylight quality light and in a much larger field of light than is possible with conventional light sources. For four areas of application - The LED Piezo Scaler for use in the areas of scaling, periodontology, endodontics, and micro-preparation. Thanks to the W&H Piezo Scaler, you can be sure to achieve the best results in all applications. The ergonomic design of the handpiece and the light weight make it possible for you to work for longer without becoming tired. The handpiece itself can be thermo washer disinfected and sterilized.

**QSW157**

**W&H  
Pyon 2 Non-Optic PB-200  
(100-230V)**

The Piezo Scaler with five sterilizable light emitting diodes in the handpiece allows exact working in daylight quality light and in a much larger field of light than is possible with conventional light sources. For four areas of application - The LED Piezo Scaler for use in the areas of scaling, periodontology, endodontics, and micro-preparation. Thanks to the W&H Piezo Scaler, you can be sure to achieve the best results in all applications. **QSW158**

**Coltene  
BioSonic  
Ultrasonic Scaler  
US100R**

The BioSonic US100R Ultrasonic Scaler provides precise water flow control, a kink-resistant handpiece cord and suitable output power for your subgingival and supragingival hygienic scaling needs, keeping the patient's comfort in mind. The US100R accommodates both 25 kHz and 30 kHz inserts, allowing either insert type to be used. A uni-directional foot pedal provides for easy operation.

**QSC006**

**Woodpecker  
Woodpecker UDS-E  
Scaling Unit**

The UDS-E is a four-function (scaling, perio, endo and auto-water supply) ultrasonic piezo scaler with a detachable handpiece which is autoclavable to a maximum temperature of 135°C and a maximum pressure of 0.22MPa. The unit features automatic frequency tracking which ensures that it is always operating on the most efficient frequency for optimum performance. It also features a built in 350ml capacity water container, however there is also an adaptor for an external water source and a spare bottle.

**QSE102**

**Woodpecker  
Woodpecker UDS-E  
LED Scaler**

The UDS-E LED is a four-function (scaling, perio, endo and auto-water supply) ultrasonic piezo scaler with a detachable handpiece incorporating an LED light. The unit features automatic frequency tracking which ensures that it is always operating on the most efficient frequency for optimum performance. It also features a built-in 350ml capacity water container, however, there is also an adaptor for an external water source and a spare bottle. Complete with 7 tips, torque wrench, tip holder and spare bottle.

**QSE103**

## Woodpecker Woodpecker Scaler UDS-J with Fixed Handpiece

The Woodpecker UDS-J is an ultrasonic scaler with fixed handpiece, making teeth cleaning easy. It is particularly suited to veterinary dentistry.

**QSE104**

## Woodpecker DTE D7 Scaling Unit

The DTE-D7 piezo scaler complete is a Satalec and NSK compatible piezo scaler. The unit will remove all dental calculus and bacterial plaque without damaging the gum area and simply fits to the main water supply or via integrated bottle. The package comes with 1 handpiece, 8 tips (scaling, perio and endo) torque wrench and foot control.

**QSE105**

## Woodpecker DTE D5 Scaling Unit

The DTE-D5 is a Satalec and NSK compatible piezo scaler. The unit will remove all dental calculus and bacterial plaque without damaging the gum area and simply fits to the current water supply of your choice. The package comes with 1 handpiece, 6 tips (scaling, perio and endo) torque wrench and foot control.

**QSE107**

## Woodpecker Periodontal Treatment Device

Woodpecker PT5 Periodontal Treatment Device – Piezoelectric scaler for painless periodontal procedures.

**QSE110**

## Woodpecker U6 Ultrasonic Scaler LED

## Hu-Friedy Piezo S-Series

**Piezo Tip S Series S10 Universal**      **PTH100**  
Standard diameter tip used to remove heavy supragingival deposits.

**Piezo Tip S Series P10 Universal**      **PTH101**  
Thin tip used to remove light deposits and plaque.

**Piezo Tip S Series 100 Universal**      **PTH102**  
Probe-sized tip used to remove light deposits in shallow to moderate pockets and for periodontal maintenance.

**Universal Perio Piezo Tip S-Series**      **PTH232**  
Thin tip used to remove light deposits and plaque. Tip features smooth edges for safe removal of soft and hard deposits.

**No.3 Perio Tip Piezo S-Series**      **PTH234**  
Thin-bladed curette-like tips used to remove heavy deposits and necrotic cementum on anteriors and premolars.

**Perio Piezo Tip S-Series Left**      **PTH236**

**Perio Piezo Tip S-Series Right**      **PTH238**  
Standard diameter contra-angle tip used to remove calculus on all surfaces of premolars and molars, especially difficult to reach interproximal surfaces.

**Diamond Piezo S-Series Straight**      **PTH240**  
Thin, contra-angle diamond-coated finishing instrument used for removal of residual debris and designed to enhance access to deep periodontal pockets and furcations.

## W&H Proxeo Twist Cordless Polishing System

Cordless polishing means polishing entirely without restrictions. The system allows you to change your treatment position in an instant without having to worry about annoying cables. The system is easily portable allowing premium quality rotary polishing treatment easily and effectively even when a patients mobility is limited.

**QYW030**

## NSK Prophy-Mate Neo

Enhanced Prophy-Mate Neo unites form and functionality for easier use. Excellent weight balance and a lightweight, compact powder chamber make Prophy-Mate Neo comfortable to hold, while the original NSK handpiece connection swivels 360° even under strong air pressure. Effortless operation shortens time for treatment of plaque and stains.

**Perio Kit**      **QYK039**

## KaVo PROPHYflex 3 Cannula Tip

Cannula Tip QYK047

## KaVo Perio Powder

For thorough and gentle subgingival treatments, KaVo offers its PROPHYflex Perio Powder. This fine-grain glycine powder is particularly gentle on the gingiva and therefore suited best for treatment of periodontitis or peri-implantitis sufferers. 4 bottles. QYK082

## KaVo Powder Orange Flavour

With KaVo's PROPHYflex powder you can clean fissures prior to sealing particularly gently and in the prevention of caries and gingivitis you can remove plaque, biofilm and discolorations very simply and effectively. KaVo's PROPHYflex powder is perfectly suited for applications is aesthetic prosthetics, to adapt the colour of healthy teeth to bridges, inlays or crowns or prior to bleaching. QYK046

## KaVo PROPHYpearls

PROPHYpearls roll away stains, plaque and calculus gently and powerfully. As they optimize cleaning performance, PROPHYpearls are gentle to sound tooth structure, thereby avoiding surface damage. This advanced calcium carbonate powder provides faster cleaning and your patients will appreciate the non-salty taste. KaVo's PROPHYpearls are spherical shapes and hence provide optimum cleaning power: The round surfaces offer more contact points than conventional powders and therefore work even more efficiently. At the same time they are particularly gentle on the teeth. Pack 80.

PDM315

## UnoDent Non-Latex Rubber Dam Squares

Appropriate isolation is essential for the success of root canal treatment. Rubber Dam aids to achieve good moisture control and is vital for patient safety. It is essential to prevent saliva interfering with the dental treatment being carried out, and to prevent instruments from being inhaled, swallowed or damaging the mouth. Zero protein and low powder. Light Blue. Size 6" x 6" (152 x 152mm) Box 20.

|        |        |
|--------|--------|
| Medium | EWS025 |
| Heavy  | EWS045 |

## UnoDent Latex Rubber Dam Squares

Protect your patients! Appropriate isolation is essential for the success of root canal treatment. Rubber Dam aids to achieve good moisture control and is vital for patient safety. Latex. Size 6" x 6" (152 x 152mm) Pack 36.

|             |        |
|-------------|--------|
| Heavy       | EWS040 |
| Extra Heavy | EWS050 |

## Hygienic Elasti-Dam Heavy Child

Extra elastic and Powder-free latex dam. Elasti-Dam is considerably more elastic (1) and tear resistant than standard latex dam making application much easier. At the same time Elasti-Dam offers the excellent retraction properties valued in standard latex dam. Elasti-Dam is powderfree (2) and has a controlled low level of protein, so patient and dental team are less exposed to allergenic particles and face a lower risk of developing a latex allergy.

EWS307

## Hygienic Framed Dam Non Latex 6x6"

Flexi Dam non latex is easy to use and ensures optimum moisture control. The highly elastic material contracts closely around the tooth for effective isolation. Violet Flexi Dam prevents confusion with latex dams. Blue Flexi Dam provides good contrast to the area of treatment and has a relaxing effect on the doctor. Working with Flexi Dam is effective and safe. Ultra convenient built in frame (working size 100mm x 105mm)

EWS383

## Hygienic Non Latex Rubber Dam

100% latex free dental dam has similar tear resistance to natural rubber latex without any patient/staff reactions. It is powder-free, colour reflective and has a minimum of 3 years shelf life. It is easy to apply and used for improved patient comfort and enhanced view of working field. 6" x 6" (152mm x 152mm) sheets. Teal Green.

EWS399

## Kerr OptiDam

OptiDam - rubber dam with a 3-dimensional shape and nipple design, for a practical and easy application. The dental dam, combined with its dedicated anatomical frame, matches the contours of the mouth, giving you perfect visibility and accessibility to the treatment area. It does all this while ensuring your patient is comfortable throughout the procedure.

## Roeko Flexi Dam Non-Latex Blue

Roeko Flexi Dam non latex is made from a high quality material with exceptional characteristics. Flexi Dam non latex is easy to use and ensures optimum moisture control. The highly elastic material contracts closely around the tooth for effective isolation. Violet Flexi Dam prevents confusion with latex dams. Blue Flexi Dam provides good contrast to the area of treatment and has a relaxing effect on the doctor. Working with Flexi Dam is effective and safe. 15 x 15cm, 0.50mm thick. Includes template.

EWK402

## Rubber Dam & Accessories

### DMG MiniDam

DMG MiniDam can be placed by one person in just a few seconds and stabilizes itself – without clasps, with open access to the treatment area. That makes it extremely convenient for the clinician and very comfortable for the patient. The material is latex-free and thus harmless for allergy sufferers.

EWD010

### Ivoclar Vivadent OptraDam Plus

OptraDam Plus is based on an innovative, three-dimensional technique to establish a completely dry treatment field. Due to its anatomical shape and flexible, three-dimensional design, OptraDam is completely different from conventional rubber dams. As the dam is automatically stretched in an oral direction, an automatic hold of the device in the oral cavity is ensured. OptraDam is available in the adult sizes “Regular” and “Small”. Due to the enhanced elasticity of the material, the lips and cheeks are even more gently retracted around the circumference of the mouth. Consequently, OptraDam Plus is now even more comfortable to wear even during lengthy procedures. Simultaneous isolation of both arches thanks to the tension-free placement.

## Hygenic Rubber Dam Template

For 6" (152mm) Dam.  
EWN215

## UnoDent Rubber Dam Template

Stainless steel. FDI numbers are laser marked for easy identification of a tooth. Suitable for permanent and deciduous teeth. Dam is placed over the template and marked. For 6" x 6" rubber dam.  
EWC950

## Hygenic Orashield Dental Dam Napkins Standard Frame Size

Soft dental napkins to avoid direct contact of dental dam with sensitive skin. Made of special, non-woven fabric in both frame size for use with standard frame sizes 5" & 6". Maximum absorption of saliva, water and perspiration.  
EWN300

## UnoDent Rubber Dam Clamp Sterilising Tray

Autoclavable.  
EWC951

## Ultradent OraSeal Caulk Refill Pack

OraSeal Caulking and Putty material effectively adheres to wet rubber dams, wet gingival and mucosal tissues, wet teeth, metals, etc.— even under water or in saliva! Use OraSeal Caulking when an adequate seal is difficult to obtain with compromised teeth or roots. OraSeal may also be used to repair rubber dam leaks. It seals the rubber dam when performing a porcelain repair, protecting gingiva from hydrofluoric acid.  
FC0000

## Hygenic Wedjets Stabilising Cord

## Kerr SoftClamp General Kit

The universal gentle alternative to metal clamps. SoftClamp's unique design distributes the applied force evenly, reducing the pressure on the contact area. The grip-tight coating of the clamps' jaws allows SoftClamp to engage the tooth surface gently but firmly, minimising the risk of slippage and eliminating the cause of patient discomfort and iatrogenic damage to the teeth.

Safe. No sharp edges. Evenly distributed clamping force. Minimises risk of harm to soft tissue, tooth structure or delicate restorations  
EWK500

## UnoDent Unolux Seal Bottles

Light-curing composite for sealing fissures and occlusal surfaces for the purpose of caries prophylaxis. Shade: transparent. 2 x 3ml.

PSU010

## UnoDent Unolux Seal F Kit

Light-curing fissure sealant with fluoride release for caries prophylaxis. White coloured fissure sealant facilitates visual control and provides a long-lasting protection. Easy direct application with syringe. Pack 2 x 2ml syringes, white with fluoride and 20 intra-oral tips.

PSU020

## UnoDent Unolux Seal F Intra-oral Tips

Bag 100.

PSX001

## Voco Grandio Seal Syringes

Light-curing nano-hybrid fissure sealant. Use of nano-fillers for optimal flow behaviour. With 70% w/w highest filler content in its class. Outstanding physical properties: - low abrasion, - high transverse strength, - extremely low shrinkage values. Excellent handling. Optimal wetting. Grandio® Seal in the new NDT®-syringe means non-dripping-technology. Can be dosed and applied precisely without any loss of material. Contains 2 x 2g syringes, application cannulae type 45.

FLV982

## 3M Clinpro Sealant

Clinpro Sealant is a light-cure, low viscosity, fluoride releasing pit and fissure sealant with a unique patented colour change feature. Clinpro sealant is pink when applied to the tooth surface, and changes to an opaque off white colour when exposed to light. The pink colour helps the dental professional with the accuracy and amount of material placed during the sealant procedure. Kit contains: 2 x 1.2ml syringes and 20 black syringe tips 1 x 3ml syringe Scotchbond Etchant and 25 blue etchant syringe tips.

Intro Kit - Syringes PSM005  
Refill Kit PSM010  
Bottle PSM025

## SDI Riva Protect Capsules Pink

Riva Protect is the ideal product for caries-challenged patients – it adheres directly to the tooth, strengthens the underlying tooth structure and effectively seals the tooth from harmful bacteria and acids. Great protector for partially erupted teeth. Low viscosity - allows Riva Protect to quickly flow over surfaces and penetrate deeply into pits and fissures. Self-adhesive - like all glass ionomer cements, Riva Protect chemically bonds to the tooth surface without the need of an adhesive. Moisture tolerant - can be placed in a moist or dry environment. Pack 50.

PSS020

## Ivoclar Vivadent Helioseal

Helioseal is a light-curing, fissure sealant. The low viscosity of Helioseal Clear ensures optimum esthetic results and easy monitoring of fissures.

Assortment PSV020  
Refill Pack PSV010  
Clear Refill Pack PSV025

## Voco Fissurit F

Light-curing fissure sealant with fluoride, white. Indications include: Sealing of pits, fissures and occlusal surfaces for caries prophylaxis. Facing of damaged enamel surfaces. Anchoring of orthodontic appliances. Sealing of composite and cement fillings (protection against moisture). Restoration of small carious lesions. Repair of small defects in composite and amalgam fillings.

Syringes PSV900  
Set PSV902

# Desensitizers & Specialist Treatments

## Colgate Duraphat Varnish 2.26% Sodium Fluoride

Colgate® Duraphat® Varnish is clinically proven for the prevention of caries. It is tinted for easy visualisation and sets rapidly on contact with saliva, making it quick and easy to apply. It covers teeth with a film of suspension which hardens in the presence of saliva. It then persists over the following hours to cause fluoride to accumulate at a measurable depth in the tooth enamel. Active ingredients: Contains 22,600ppm sodium fluoride.

PFV010

## Ivoclar Vivadent Fluor Protector

Fluor Protector Gel contains fluoride as well as calcium and phosphate. These ingredients protect teeth and repair and strengthen affected tooth structure. Xylitol inhibits the growth of cariogenic bacteria. The provitamin D-panthenol is soothing to the gums and mucous membrane, which benefits the general health of teeth and the oral cavity.

**Gel 20g** PHV002  
**Gel 50g** PHV003  
**Single Dose Pack 20** PHV000  
**Single Dose Pack 40** PHV004

Contains Xylitol

## Ivoclar Vivadent Fluor Protector S

The innovative varnish system of Fluor Protector S featuring a homogeneously dissolved fluoride source ensures immediate availability of the fluoride. As a result, dental enamel is directly and effectively supplied with fluoride. The low viscosity of the varnish is responsible for its optimum flow and wetting properties.

**7g** PHV007  
**3x7g** PHV008  
**Single Dose 20x0.26** PHV006

## Dentsply Sirona NUPRO White Varnish 5%

Containing 5% Sodium Fluoride (22,600ppm), NUPRO White Varnish is indicated for sealing of dentinal tubules for the treatment of hypersensitive teeth, sensitive root surfaces and for cavity preparations. Rapid fluoride release for quick protection. Transparent finish (sets clear on the teeth) for patient satisfaction. Can be applied directly to wet teeth for easier and quicker application. It has a unique formulation to minimise clumping, with no dripping or stringing either.

**Grape** PPJ213  
**Raspberry** PPJ214

Gluten free

## 3M Clinpro White Varnish with TCP

Clinpro White Varnish with TCP (Tri-Calcium Phosphate) is a proprietary formula that contains fluoride, calcium and phosphate-components naturally found in saliva. Contains functionalised tri-calcium phosphate (fTCP) for deep natural mineralisation. Penetrates and seals the dentinal tubules to reduce sensitivity. Spreads more easily over tooth surfaces and flows better. Easy to use thanks to fast application of the clear varnish.

**Mint Flavour Pack 50** PSM052  
**Mint Flavour Pack 100** PSM054  
**Cherry Flavour Pack 50** PSM056  
**Cherry Flavour Pack 100** PSM058  
**Melon Flavour Pack 50** PSM060  
**Melon Flavour Pack 100** PSM062

## Voco Profluorid Varnish

Fluoride-containing dental desensitising varnish with 5% NaF. Easy to apply on wet tooth surfaces. Esthetic, tooth-shade varnish. Fast desensitisation and fluoride release (5 % NaF 22,600 ppm fluoride)

**Tube Caramel 10ml** PFV395  
**Tube Cherry 10ml** PFV396  
**Tube Mint 10ml** PFV397  
**Tube Melon 10ml** PFV400

**Single Dose Mint 50 x 0.4ml** PFV394  
**Single Dose Melon 50 x 0.4ml** PFV405

## Voco Bifluorid 10

Fluoride varnish for the treatment of hypersensitivity. Cervical area and crown margins, sensitivity after professional cleaning and calculus removal, tooth surfaces after preparation and/or grinding worn occlusal surfaces and teeth carrying clasps, after injury of the enamel (e.g. fractures, chips) sealing cavity margins after restoration, especially after the etching technique has been employed, as a dentine protection/lining under amalgam fillings.

**Bottle 10g** PFV304  
**Single Dose 50 Pack** PFV305  
**Single Dose 200 Pack** PFV310

## UnoDent DE-SEN LC Kit

A light-curing, fluoride-releasing one-component preparation for the treatment of dentine hypersensitivity. Reduces hypersensitivity after just one application in most cases and protects against external influences and abrasion. Biocompatible. Contains: 1 x 4.5ml Bottle, 1 Handle and 50 Application Tips. PFO000

## SDI Riva Star

Tooth desensitising agent and cavity cleanser. Riva Star uses a triple-action approach to reduce tooth sensitivity. It has the action of fluoride and silver plus the patented booster effect of potassium iodide. This powerful combination gives the relief needed for hypersensitive teeth.

**Kit** FGS178  
**Bottle Kit** FGS179

## Panadent Prime-Dent HEMA Desensitizer

Offers immediate relief from cervical sensitivity (root sensitivity, cervical erosion, gingival recession, exposed root surfaces after periodontal therapy), tooth whitening, bonding procedures, permanent and temporary restorations. Does not contain glutaraldehyde. Contains HEMA – acts as a wetting agent in bonding procedures, preventing post-operative sensitivity. No mixing or light-curing. PFP010

## Kuraray Teethmate Desensitizer

Teethmate Desensitizer can be used to close exposed or prepared dentin and also before and after bleaching. It can also be used in combination with the favourite adhesive or cement. Various studies show that the application of Teethmate Desensitiser is effective and occlude the dentinal tubules reducing the dentinal fluid movement and the consequent hypersensitivity.

**Set** PFK000  
**Intro Kit** PFK002  
**Powder** PFK004  
**Liquid** PFK006

## Kulzer Gluma Desensitizer

For rapid and lasting protection against dental pain. This preparation reduces or alleviates postoperative pain due to preparations and relieves pain in hypersensitive cervical areas. A one-component material, not requiring mixing or light curing.

**Bottle 5ml** FBD600  
**Single Dose Box 40** FBD601  
**Bottle Value Pack 3 x 5ml** FBD602

## Ivoclar Vivadent Telio CS Desensitizer

Telio CS Desensitizer is a clear solution for reducing and preventing dentinal hypersensitivity and postoperative sensitivity. Telio CS Desensitizer is in general suitable for pre-treating and desensitizing exposed or cut dentin surface. To prevent and minimize dentinal hypersensitivity dentin surfaces can be treated prior to seating the temporary restoration. The desensitizing agent is suitable for the following fields of application: temporary restorations, luting/ cementation of indirect restorations, direct restorative treatment and treatment of sensitive tooth necks. 5g.

TVK390

## Ivoclar Vivadent VivaSens

Treatment of hypersensitive cervicals. Treatment of tooth sensitivities e.g. due to bleaching procedures. Treatment of sensitivities occurring after professional tooth cleaning, scaling and root- planning procedures. Dentin protection below restorative materials. Hypersensitivity due to gingival recession. Hypersensitivity due to periodontitis, bruxism or erosion. Preventive use in patients with a tendency towards sensitive teeth.

**Bottle 4g** PFFV110  
**Single Dose 22 x 0.1g** PFFV105

## Go Easy F-Mix Desensitising Varnish with Fluoride 22600 ppm

Fluoride varnish gel. F-Mix is a fluoride containing one component varnish with Xylitol. For desensitising of teeth it is applied on dentin and enamel surface. F-Mix contains in addition to easy soluble fluorides Calciumfluoride and Fluorapatite. Fluorapatite particles are known to enhance remineralisation of tooth material. F-Mix has a pleasant sweetish taste. Adheres to wet and dry surfaces and can be applied easily, and time saving. 1ml F-Mix contains 21mg soluble fluoride. PFU100

Contains Xylitol

## Beutlich HurriSeal Desensitiser

One step dentine desensitiser. Universal uses: before and after scaling, under veneers, inlays, crowns, onlays, amalgams, composite resins, before and after tooth bleaching and whitening. An aqueous solution that should always be used after etching and before priming. 5ml. PFF001

## GC MI Varnish Intro Pack

Bio-available calcium, phosphate and fluoride for an enhanced varnish treatment, containing Recaldent™ (CPP-ACP). MI Varnish delivers a powerful dose of fluoride, with the added booster effect of the calcium and phosphate ions through its patented Recaldent technology. MI Varnish can prevent hypersensitivity in various clinical situations:

- Cervical area
- Molar Incisor Hypomineralisation (MIH)
- After professional mechanical tooth cleaning
- Occlusal wear

## CHLO-SITE Chlo-Site

Chlo-Site Gel for Treatment of Periodontitis and Peri-implantitis. Closes the site. Stops the infection. Restores pocket health.

Inhibits the growth of oral pathogens responsible for periodontitis and peri-implant mucositis. Allows natural healing and regenerative processes to take place. Is easy to apply and well tolerated by patients. Is used as an adjunct to root planing. Chlo-Site consists of an innovative xanthan gel containing two varieties of chlorhexidine. It is syringed directly into the periodontal or peri-implant pocket. It guarantees an occluding barrier at the application site for at least 15 days. The accessory action of chlorhexidine is capable of not only keeping the application site free from contamination but also increasing the mucoadhesiveness of the xanthan gel within the treated pocket.

Chlo-Site gel is an inexpensive treatment that's simple to use and well tolerated by patients. The problems of antibiotic resistance are avoided and there are reports of reductions in pocket depth after only one or two treatments.

## Ivoclar Vivadent Cervitec Plus

The protective varnish containing chlorhexidine and thymol protects exposed root surfaces and controls bacteria. The caries risk rises if the number of mutans streptococci increases significantly in the mouth. In these cases, routine oral hygiene measures, professional tooth cleaning and fluoridation do not adequately protect the teeth from damage. The Cervitec Plus varnish system, which contains the effective combination of the active ingredients chlorhexidine and thymol, allows you to selectively control these germs and therefore reduce an important caries risk factor. The transparent varnish works spot on. It helps to maintain the high quality of precision restorations for a long time.

## Microbrush Micro-Stix Original Hold

Disposable adhesive tip applicators designed to securely hold and place fragile or small restorations. Bend easily for accurate placement in hard to reach areas. Each pack contains 64 micro-Stix: 4 clear plastic cases with 16 applicators each.

Blue FBX112

## UnoDent UnoBond 5

5th Generation Bonding Adhesive  
Light-Curing Bonding Adhesive.  
Single application - No need for  
a separate primer. For bonding  
composites and compomers to  
enamel, dentine and metal.

**Bottle 3ml**      **FBD800**  
**Bottle 5ml**      **FBD801**

## UnoDent UnoBond 7

7th Generation Bonding Adhesive  
Light-Cure Self-Etching Dental  
Adhesive. A one step self-etching  
bonding agent. True one step  
application - No primers or etchants  
required. For bonding composites  
and compomers to enamel, dentine  
and metal.

**Bottle 6ml**      **FBD820**

## 3M Scotchbond Universal Plus Adhesive

3M™ Scotchbond™ Universal Plus  
Adhesive is the first radiopaque  
universal adhesive, minimising  
the risk of X-ray misdiagnosis and  
invasive overtreatment. It provides  
gold standard adhesion to all  
dental substrates, including glass  
ceramic, without the need for a  
separate primer, silane or activator.  
It supports minimally invasive  
dentistry by bonding and sealing  
caries affected dentine.

**Refill Vial 1 x 5ml**      **FBD339**  
**Unit Dose 100 L-Pop**      **FBD346**

## GC G-Premio Bond 5ml Bottle Refill

G-Premio BOND is a one-bottle  
universal bonding compatible with  
all etching modes and which can be  
used not only for direct bonding,  
but also for repair & hypersensitivity  
treatment. G-Premio BOND offers  
the advantages of a universal  
bond, but with a top performance  
in all situations thanks to a unique  
combination of three functional  
monomers (4-MET, MDP, MDTP).  
5ml.

**FBG155**

## Kerr Optibond Universal Bottle Refill

OptiBond Universal is a one bottle,  
one step, universal bonding agent  
with Self-Etch, Selective Etch and  
Total-Etch indications. The solution  
provides excellent bond strength to  
all surfaces and substrates for both  
indirect and direct restorations.  
When used in conjunction with  
NX3 or Maxcem Elite resin cement,  
OptiBond Universal yields enhanced  
bond compatibility and exceptional  
indirect bond strength. 5ml.

**FBD193**

## Coltene One Coat 7 Universal Bottle Refill

One Coat 7 Universal is a light-  
cured, one-component bonding  
agent used with the self-etching,  
selectively etching or total etch  
technique for adhesive restoration.  
Low-evaporation formula – no  
volatile acetone-based solvents  
that can quickly evaporate.  
Nanofilled technology – delivers  
a homogenous bond layer and  
improves mechanical properties.

**FBE168**

## Dentsply Sirona Prime&Bond active Standard Refill

Prime&Bond active is a universal  
adhesive with patented Active-  
Guard™ Technology that delivers a  
reliable, gap-free bond with virtually  
no post-operative sensitivity on  
over-wet and over-dried dentin.  
4ml Bottle.

**FBE093**

## Ivoclar Vivadent Adhese Universal

Adhese Universal is a single  
component, light-cured adhesive  
for direct and indirect bonding  
procedures that features  
compatibility with all etching  
techniques: self-etch, selective-  
enamel-etch and total-etch. Adhese  
Universal is available in the unique  
VivaPen delivery form for fast  
and convenient direct intra-oral  
application with minimal waste to  
optimize cost-effectiveness.

**Refill Bottle 5g**      **FBD206**  
**Refill VivaPen 2ml**      **FBD200**

## Kulzer iBOND Universal Bottle Refill

iBOND Universal is the universal, light-curing adhesive for any bonding technique for any indications. Being compatible with all dental materials, it is the all-rounder for reliable bond strength. Whatever the material, whatever the patient's situation, one bottle of adhesive takes you through indications of direct and indirect restorations with amazing adhesion. Safely and easily. 4ml.

FBD406

## Shofu BeautiBond Bottle Kit

BeautiBond is an innovative "all in one" adhesive of the 7th generation, for the bonding of filling composites to natural enamel and dentine, and offers a high initial and constant bond strength. The absence of laborious and technically sensitive procedures guarantees bonding to be both simple and fast, meaning that the build-up of the fillings can be started in less than 30 seconds.

FBS000

## Voco Futurabond M+ Bottle

Universal adhesive. Direct and indirect restorations using any light-curing methacrylate-based restorative, core build-up or luting composite. Can be applied with or without phosphoric acid etching. Applied in one layer - only 35 seconds total working time. 5ml.

**Note: this pack contains a refrigerated product and will not be despatched on a Friday**

**Syringe Refill Universal** FLU880  
**Syringe Refill Dentine** FLU881

## UnoDent Luminos BN

Bulk Fill Nano Hybrid Composite. Advanced fluoride-containing nano hybrid composite. Excellent radiopacity. Excellent wear resistance - long lasting restorations. Low polymerization shrinkage. Optimum translucency for aesthetic appearance. Designed predominantly for posterior use, including occlusal surfaces. Packable.

**Syringe Refill A** FLU850  
**Syringe Refill Universal** FLU851

## UnoDent Aqua-Fil Anterior Introductory Kit

A fast-setting glass ionomer restorative activated by mixing with water. Adheres directly to enamel, dentine, cementum and set amalgam. High resistance to wear and erosion. Biologically compatible and releases fluoride.

Contents of pack:  
 1 x 10g net Light Yellow (No.2 LY) powder. 1 x 10g net Universal (No.3 U) powder. 1 x 10g net Light Grey (No.4 LG) powder. 1 x 10g net Yellow Brown (No.5 YB) powder. 1 x 10g net Yellow Grey (No.7 YG) powder. 1 x 10ml Tooth Cleanser. Water Dispensing Bottle. Powder Scoop. Shade Guide.

## GC Fuji Triage Capsules

Radiopaque low viscosity glass ionomer surface protection material. Children with fragile, erupting teeth. Adults seeking immediate relief from sensitive teeth. Elderly patients developing caries, rampant and unchecked. They all need protection fast. GC Fuji Triage has a strong track record of preventing caries in erupting teeth. GC Fuji Triage is self adhesive, insensitive to moisture and has a low enough viscosity to penetrate pits and fissures.

## RLS Global CariSolv

CariSolv is a unique method for removing caries effectively while leaving healthy dental tissue intact. CariSolv enables minimally invasive treatment that selectively softens necrotic tissue in affected dentine and preserves healthy tissue. CariSolv softens demineralised carious dentine prior to mechanical removal which can be achieved using hand instruments or a bur in a slow speed handpiece. The procedure provides selective removal of carious dentine and preserves sound tooth tissue. It causes less pain for the patient, and enables better dentine bonding.

FBD193

Exclusive to DD

## DMG Icon Proximal

Micro-invasive treatment of early, non-cavitated caries in the proximal area. Tooth friendly filling by infiltration – no drilling needed. Gentle therapy approach for difficult-to-reach proximal lesions in just a few steps. No unnecessary loss of healthy hard tissue. Starter Kit comprises 2 Treatment units each including: 0.3ml Icon-Etch Syringe, 0.45ml Icon-Dry Syringe, 0.45ml Icon-Infiltrant Syringe, 6 x Approximal Tips, 1 x Luer-Lock Tip, 6 x Dental Wedges.

## UnoDent Sectional Matrix System - Starter Kit

The UnoDent Sectional Matrix System helps to produce high-quality, anatomically accurate Class II composite restorations. The system includes a molar and premolar ring, four different size matrix bands, and three wedge sizes. The nickel-titanium ring is strong with stability that exerts optimal separation force on the teeth to produce the best contacts. **MPU000**

## Dentsply Sirona Palodent V3 Starter Kit

Palodent V3 (formerly Palodent Plus) sectional matrix system delivers predictable, accurate contacts consistently. The system includes a molar and pre-molar ring, 4 different size matrix bands and new wedges and WedgeGuards. The Nickel Titanium rings offer consistent separation force and will last longer than traditional stainless steel rings. The tines on the rings help to provide excellent retention on the tooth and the system seals the restoration to minimize the amount of finishing required. **MPP061**

## Kerr Sycamore Interdental Wedges Assorted Package

Hawe Sycamore Interdental Wedges have an optimal anatomical shape. The concave sides adapt perfectly to the interdental contour. The square end allows easy insertion of the wedge and the upturned tip prevents damage to the papillae. The wedges are made of splinter-free sycamore wood, ensuring stability and compressibility. They are available in 8 different colour-coded shapes.

**PAU100**

## Colgate 360° Toothbrushes

The Colgate 360° toothbrush provides a whole mouth clean. Tightly packed, tapered bristles reach interproximally and along the gingival margin to remove plaque. A raised cleaning tip provides better access to posterior areas. Soft rubber polishing cups gently remove stains. An advanced cheek and tongue cleaner design with more bacteria removing nubs. Pack 12.

**Compact Medium PAC100**  
**Sensitive Pro-Relief PAC106**  
**Max White One Medium PAC113**

## Colgate Total Pro Gum Health Soft

Designed with Dental Professionals, includes stimulating fingers to gently massage and stimulate gums. Specially designed with Pro Tip bristles to clean those hard-to-reach places whilst being gentle on gums. Pack 12.

**PAC120**

## Colgate Triple Action Medium

Triple action in one toothbrush - cleans teeth, removes stains and freshens breath. Dual-angled bristles specially designed to clean hard-to-reach areas. Circled bristle pattern helps remove surface stains and reveal the natural whiteness of your teeth. Tongue cleaner to remove odour-causing bacteria. Pack 12.

**PAC920**

## Colgate Slim Soft Toothbrush

For deep, yet gentle, cleaning between teeth and under the gum line. The ultra compact, slim head has tapered bristles with micro fine filament ends that are 17 times thinner than regular bristles and has 35% higher bristle density. Pack 12.

**PAC122**

## Curaprox Sensitive Supersoft

With 3,960 CUREN® filaments this brush is still gentle on gums whilst also offering superb cleaning power. Extremely soft and sensitive. For patients that wish to exert some extra pressure whilst still keeping the gumline intact. Small brush-heads ensure easy access to hard-to reach areas. Bendable neck allows angulation for individual preference. Pack 12.

**CS 3960 PAC600**  
**Cello Wrap CS 3960 PAC601**

## Curaprox Surgical

This extremely soft toothbrush is designed to provide special care following operations, for people with inflammation to the gums and during radiotherapy of the oral cavity. The CS surgical mega soft brushhead has more than 12,000 ultrafine filaments which are a mere 0.06 mm in diameter, resulting in a gentle yet effective approach to oral hygiene when extra care is needed. Pack 12.

**PAC602**

## Curaprox Sensitive Soft

Extremely soft and sensitive. For patients that wish to exert some extra pressure whilst still keeping the gumline intact. Small brush heads ensure easy access to hard-to reach areas. Bendable neck allows angulation for individual preference.

## Glaxosmithkline Sensodyne Pronamel Toothbrush

Designed to help protect tooth enamel. Patented flexible gel pad that holds the brush bristles to provide effective cleaning. Micro-fine bristle ends are gentle on the tooth enamel. Pack 12.

PAA013

## Glaxosmithkline Sensodyne Repair & Protect Toothbrush

Gum recession and enamel wear can be caused by over brushing, and over time this can lead to exposed dentine and sensitive teeth. Sensodyne Repair & Protect toothbrush has bristles which flex on contact with the teeth and gums to help provide gentle cleaning. Pack 12.

PAA014

## Glaxosmithkline Sensodyne Daily Care Toothbrush Soft

The Sensodyne Daily Care toothbrush has been designed for a daily clean and brush of sensitive teeth. Its bristles are designed to be gentle on sensitive teeth and gums. Its small brush head is specially designed to provide effective cleaning even the hard to clean areas. Pack 12.

PAA017

## Glaxosmithkline Corsodyl Daily Soft Toothbrush

The Corsodyl Toothbrush is specially designed to help maintain healthy gums and make teeth cleaning easy. With a small head and soft, dual length bristles, it is gentle on your gums but tough on plaque, one of the main causes of gum problems. It features an ergonomically shaped handle to give you a secure grip when brushing. There is a soft tongue cleaner on the back of the toothbrush head, used by moving the grooves forwards over the tongue's surface. Pack 12.

PAA145

## Glaxosmithkline Sensodyne Search 3.5 Cello Wrap

Compact toothbrush specially designed for sensitive teeth. Gentle round filaments help prevent gum damage and slim neck gives easy access to all areas of the mouth. Pack 12.

PAS002

PAW074

## Colgate ProClinical C250 Electric Toothbrush (Black)

The Colgate ProClinical C250 electric toothbrush uses two distinct sonic cleaning motions - up-down and side-to-side, for healthier teeth and gums. Its slim, sleek design is similar to that of a manual toothbrush while its sonic vibrations clean with the power of an electric toothbrush to remove plaque and surface stains.

PAC905

## Colgate ProClinical Triple Clean Brush Heads

Fits every model. Cleans in 3 ways. Special bristles to remove surface stains. Inner bristles remove plaque from teeth surfaces. Tapered outer bristles clean deep along the gum line. Pack 4.

PAC916

## Colgate 360° Battery Toothbrush

For a healthy whole mouth clean. The dual-action brush head with cheek & tongue cleaner removes 4x more bacteria than the leading battery toothbrush for a healthy whole mouth clean with a comfortable non-slip handle. Pack 6.

PAC086

## Colgate 360° Max White One Battery Toothbrush

For optimum whitening results use Colgate 360 Max White ONE Toothbrush! Whitening cups and special polishing bristles help to remove surface stains for a naturally whiter smile. Pack 6.

PAC088

## Colgate ProClinical Deep Clean Brush Heads

Soft, thin-tipped bristles sweep along gumline. Power tip bristles clean hard-to-reach areas. Soft rubber cup polishes teeth. Tongue and cheek cleaner helps remove odour causing bacteria. Indicator bristles with blue tips change colour when toothbrush head needs replacing. Pack 4.

PAC919

## Oral B Pro 600 Cross Action

Featuring precisely angled bristles, the PRO 600 with Cross Action brush head is designed to effectively lift and power away more plaque than a regular manual toothbrush, leaving behind nothing but an astonishing clean.

PAO993

## Oral B Pro 2000 Cross Action

The Pro 2000 CrossAction electric toothbrush provides a clinically proven superior clean versus a regular manual toothbrush. The pressure sensor lights up if you brush too hard to prevent harmful over-brushing and there are two modes - Daily Clean and Gum Care - plus an in-handle timer to help you brush for a dentist-recommended 2 minutes.

PAO996

## Oral B Precision Clean Brush Heads

For use with Triumph, Professional Care, Vitality and Advance Power. An advanced bristle system removes more plaque and cleans deeper than a manual toothbrush. Interdental tips penetrate hard-to-reach areas. Indicator bristles let you know when to replace the brush head.

Pack 4  
Twin Pack  
2+1 Pack

PAO660  
PAO611  
PAO617

## Oral B Cross Action Brush Heads

Rightly angled to reach deep between teeth. Angled bristles set at 16° to effectively clean along the gum line. Bristles clean tooth by tooth to help remove up to 100% plaque. Indicator bristles fade as a sign to replace the toothbrush head for a better clean (about every 3 months). Compatible with the entire line-up of Oral-B electric toothbrushes, except for Oral-B sonic toothbrushes.

**Twin Pack** PAO601  
**Pack 4** PAO603

## Oral B Sensiclean Brush Heads Twin Pack

Soft, ultrathin bristles that are gentle on gums, combined with regular bristles that are tough on plaque. Sensi Ultrathin removes up to 100% more plaque and reduces gum inflammation by 100% compared to a manual toothbrush. The unique combination of end rounded and ultrathin bristles make Sensi Ultrathin ideal for everyone with a sensitive mouth and everyone who is looking for just a great gentle clean. Pack 2.

PAO631

## Oral B Trizone Brush Heads

Features innovative triple action deep cleaning bristles for superior plaque removal vs a regular manual brush. Pack 4.

PAO667

## Sanyei ION-Sei Electric Toothbrush

The ION-Sei electric toothbrush uses an Ultra Violet (UV) LED light that reacts with a Titanium Dioxide bar in the brush handle, to create ions that suppress the bacteria that cause plaque. The negative electrons are sent to your mouth via water or saliva. Although ION-Sei uses advanced technology, it harnesses nature using “water and light”.

**Lake Blue** PAI200  
**Day White** PAI201

## Sanyei ION-Sei Brush Head

ION-Sei Electric Toothbrush Replacement Brush Heads, 2 Brush Heads per Pack.

**Standard** PAI202

**Plak Smacker Turbo Power Toothbrush**

Each.  
Barbie PAP324

**Colgate Total Proof Toothpaste**

It turns from a white paste into a blue active foam as it cleans to break up plaque and fight bacteria. 12 x 75ml.

PBC168

**Colgate Sensitive Pro-Relief Toothpaste**

Colgate Sensitive Pro-Relief Toothpaste with Pro-Argin® Technology is a sensitivity toothpaste offering clinically proven instant and long lasting relief from dentine hypersensitivity, together with the recommended fluoride level for caries prevention (1450ppm F). 12 x 75ml.

- 1450ppm Fluoride PBC170
- Whitening PBC174
- Extra Strength Whitening PBC176

**Colgate Colgate Total**

Colgate Total is uniquely formulated with 0.3% of the antibacterial ingredient triclosan. It is retained in the oral cavity for 12 hours after brushing prolonging the control of the oral bacteria that form plaque and can cause gingivitis, calculus, and oral malodor.

- Original Care Mint PBC180 12 x 75ml
- Advanced Mint PBC181 12 x 125ml
- Advanced Freshening PBC184 12 x 75ml

## Colgate Max White One

Colgate Max White One has micro-crystal whitening accelerators which gently remove stains and prevent the formation of tartar so you get 1 shade whiter teeth in 1 week. 75ml.

PBC221

## Colgate Max White One Optic

Colgate Max White One Optic is the first toothpaste to combine clinically proven optic brighteners that reflect light, with unique cleaning particles that safely remove stains, making your teeth smooth, clean, and visibly whiter instantly. 12 x 75ml.

PBC230

## Colgate Max White Expert White Toothpaste Cool Mint

Colgate Max White Expert White works differently, it is the only toothpaste in the UK to contain a professional whitening ingredient. Most toothpastes only help remove recent, surface stains but unique formula is designed to go deeper, to remove deep-set stains and reverse years of yellowing. 12 x 75ml.

PBC235

## Colgate Total Pro Gum Health Toothpaste

Long lasting protection against gum bleeding. Reduces gum inflammation. Long lasting protection against: cavities, plaque and tartar. Clinically proven to reduce progression of periodontitis. Clinically proven to improve gum health. 12 x 75ml.

PBC308

## Curaprox Enzykal Toothpaste 1450

A mild anti-caries toothpaste for everyday use with 1450 ppm sodium fluoride. Its mild **SLS-free** formula and **lack of strong essential oils** significantly reduce mouth ulcers. Enzykal contains three important **enzymes to boost the body's own antibacterial saliva system**: for noticeably less plaque and less tartar. Ideal for use with sonic toothbrushes. **No foaming agent SLS**: gentle on the mouth. Contains enzymes: boosts natural saliva protection, promotes re-calcification and protects against dry mouth. Enamel-friendly: practically free of abrasion. 12 x 75ml.

PBC010

SLS Free  
Toothpaste

## Curaprox Black is White Toothpaste & Brush

Refreshingly lemony. Whitening toothpaste **removes discolouration using activated carbon** without abrading or bleaching. 1,450 ppm fluoride. Strengthens oral health: enzymes protect against tooth decay and support the salivary functions. 15,000 ppm hydroxylapatite (nano) remineralise tooth enamel and seal exposed dentine channels. Plus: Physical blue filter; cooling sensation while brushing. RDA - 50. **No SLS. No triclosan. No bleaching agents. No plastic particles.** Can be used as a regular toothpaste without any limitations. Each.

PBC050

SLS Free  
Toothpaste

## Glaxosmithkline Corsodyl Daily

Corsodyl Daily is a daily use toothpaste that is clinically proven to help stop and prevent bleeding gums. Its formula is different from a regular toothpaste, as it uses refined particles of sodium bicarbonate to break apart the layer of plaque bacteria on your teeth to make it easier to remove, even in hard to reach areas. Specially formulated to nurture gums & strengthen teeth. SLS free so ideal for patients being treated with 0.2% chx. Contains no chx. Contains mineral salts and 6 plant extracts.

|             |        |

| Original    | PBB350 |
| Extra Fresh | PBB352 |
| Ultra Clean | PBB353 |
| Whitening   | PBB354 |

## Glaxosmithkline Corsodyl Complete Protection Extra Fresh

Corsodyl Complete Protection toothpaste has 8 specially designed benefits for healthier gums and stronger teeth. Brushing twice daily with Corsodyl Complete Protection toothpaste, means that you don't have to choose between taking care of your teeth or your gums – you can do both at the same time. 12 x 75ml. **PBB355**

## Glaxosmithkline Sensodyne Pronamel

Helps re-harden acid softened enamel. Optimised fluoride formulation. Neutral pH. Low abrasivity. A minty taste that keeps the mouth feeling fresh and clean. Does not contain Sodium Lauryl Sulfate (SLS). 12 x 75ml. **PBS005**

## Glaxosmithkline Sensodyne Pronamel Gentle Whitening

Sensodyne Pronamel Gentle Whitening Toothpaste is specially formulated to protect against acid erosion and also gently yet effectively remove stains, restoring teeth to their natural whiteness. As it contains fluoride it also provides the benefits of a regular toothpaste. 12 x 75ml. **PBS007**

## Glaxosmithkline Sensodyne Pronamel Extra Fresh

Pronamel@ toothpaste is specially designed for people who are at risk of acid erosion and is clinically proven to help rebuild enamel strength and protect from acids. Using its unique optimised-fluoride formulation, Pronamel@ toothpaste strengthens teeth by re-mineralising weakened enamel, penetrating deep into the tooth. 12 x 75ml. **PBS008**

## Glaxosmithkline Sensodyne Pronamel Intensive Enamel Repair Extra Fresh

Actively repairs weakened enamel. Protect against the effects of acid erosion. Provide sensitivity relief and lasting sensitivity protection. 12 x 75ml. **PBS009**

## Glaxosmithkline Sensodyne Daily Care

Specially formulated for people with sensitive teeth. It provides all the benefits of a regular toothpaste and does not contain the detergent SLS (Sodium Lauryl Sulfate). 12 x 75ml. **PBS012**

## Glaxosmithkline Sensodyne Repair & Protect

Sensodyne Repair & Protect contains NovaMin@ technology, which seeks out and forms a tooth-like layer over vulnerable areas of the tooth where dentine is exposed. Use twice a day, every day, to give strong repair\* and protect your teeth from sensitivity. Does not contain Sodium Lauryl Sulfate (SLS) 12 x 75ml.

## Glaxosmithkline Sensodyne Complete Protecton

Creates a protective mineral layer over sensitive areas to shield from the pain of sensitive teeth. Strengthens and re-hardens enamel. Helps control plaque and maintain healthy gums. Freshens breath. Helps maintain natural whiteness. Does not contain Sodium Lauryl Sulfate (SLS). 12 x 75ml.

PBS064

## Glaxosmithkline Sensodyne Rapid Relief

Sensodyne Rapid Relief is clinically proven to relieve the pain of sensitive teeth. It works in 60 seconds when directly applied with the fingertip for one minute.\* That's because it is formulated to create a physical seal against sensitivity triggers. When used twice daily, it provides long-lasting protection from sensitivity. (\*When directly applied with finger tip for one minute. Individual results may vary.) 12 x 75ml.

PBS065

## Glaxosmithkline Sensodyne Complete Protection Extra Fresh

Clinically proven relief and daily protection for sensitive teeth. With fluoride. Powered by Novamin. Strengthens & rehardens enamel. Fresh and clean feeling. Protects against plaque. Novamin restores a protective layer over sensitive areas to shield you from pain. Maintains healthy gums. Maintains natural whiteness. Does not contain Sodium Lauryl Sulfate (SLS). 12 x 75ml.

PBS066

## Glaxosmithkline Sensodyne Pronamel Multi-Action

Pronamel Multi-Action is a daily anti-cavity toothpaste that has been specifically formulated to help protect teeth from Acid Wear. Pronamel Multi-Action helps rehardens and remineralise acid-softened enamel, making it stronger and more resistant to future acid attacks. Does not contain Sodium Lauryl Sulfate (SLS). 12 x 75ml.

PBS068

## Glaxosmithkline Sensodyne True White

Sensodyne True White is specially designed to give expert care to sensitive teeth. With its ultra-low abrasion formula, Sensodyne True White gently removes stains to help restore the natural whiteness of your teeth whilst minimising the wear to the sensitive areas of your teeth that higher abrasivity toothpastes may cause with twice daily brushing. Does not contain Sodium Lauryl Sulfate (SLS). 12 x 75ml.

PBS071

## Glaxosmithkline Sensodyne Rapid Relief Extra Fresh

Sensodyne Rapid Relief Extra Fresh is clinically proven to provide sensitivity relief in just 60 seconds. It also leaves your mouth feeling clean and fresh. Its unique formula quickly creates a barrier over the sensitive areas of your teeth. It provides fast relief and builds ongoing protection with every brush. With twice daily brushing it also helps whiten enamel and prevents staining. 12 x 75ml.

PBS072

## Glaxosmithkline Sensodyne Sensitivity & Gum

Sensodyne Sensitivity & Gum toothpaste is a clinically proven daily dual action toothpaste for people with sensitive teeth and gum problems. Its dual action formula works in two ways. It builds a protective layer over sensitive areas and it targets and removes plaque bacteria to help support good gum health. 12 x 75ml.

## Glaxosmithkline Cleanicdent WE 40ml Tube

Cleanicdent is a gentle, effective stain removal toothpaste that boasts its whitening effect thanks to Perlite, the same natural volcanic glass used by the professional prophylaxis paste Kerr Cleanic™. A professional solution that patients can now use at home. Each.

PBC601

## Oral B 3D White Arctic Fresh

This toothpaste has 3 benefits in 1 - whitening, strengthening and protecting teeth. The enamel-safe formula gently removes surface stains on teeth to reveal a beautiful white smile and the arctic mint flavour leaves breath with a long lasting freshness. 12 x 75ml.

PBO113

## oraNurse Unflavoured

oraNurse **unflavoured toothpaste** is an unflavoured toothpaste specially formulated for people sensitive to strong flavours. It has the daily recommend fluoride and is **SLS free (non foaming)**. oraNurse unflavoured toothpaste was initially developed as a result of autistic children who have a problem with taste even to the extent of not liking the taste of water. This has resulted in the development of a toothpaste with no sodium lauryl sulphate (foaming agent) or flavourings but still with the protection of 1450ppm fluoride. 12 x 50ml.

PBO001

## UltraDEX UltraDEX With Fluoride

The advanced iQ+ ActiveOxi Technology® within UltraDEX® Low-Abrasion toothpaste is clinically proven to instantly eliminate bad breath compounds (Volatile Sulphur Compounds) for 12 hour fresh breath confidence. UltraDEX® Low-Abrasion Toothpaste is mint flavoured and **non-foaming**. **Free from sulphates** and harsh abrasives. Contains fluoride. **Suitable for vegans**. 6 x 75ml.

PBP062

## UltraDEX UltraDEX Whitening

UltraDEX Whitening has been scientifically developed to enhance and whiten smile, eliminate bad breath instantly for 12 hours and also provide a protective shield over enamel, suitable for sensitive teeth. Helps remineralise teeth leaving them stronger and less sensitive. Used and recommended by dental care professionals. **Registered with the Vegan Society**. Mint flavoured. 6 x 75ml.

PBP065

## Wisdom Wisdom Xtra Clean Toothpaste

Wisdom Xtra Clean toothpaste offers all round protection for teeth and gums. Its antibacterial action helps fight bacteria for healthy gums, whilst the fluoride helps to strengthen teeth against decay. 12 x 100ml.

PBW066

## Colgate Maximum Cavity Protection Junior Mild Mint

All the protection of Maximum Cavity Protection plus Sugar Acid Neutraliser in a child friendly mild mint flavour. 12 x 50ml.

# Interdental

## Colgate Total Professional Gum Health Floss

Helps reduce gum problems and tooth decay by removing plaque. Reaches between teeth where cavities can develop. Slides easily between teeth without shredding. 25m tape in each dispenser. Hygienic easy close lid. 10 x 25m. PCC206

## Curaprox Curaprox 3 in 1 Perio Floss DF843

This fleecy floss is very fine and exceptionally practical thanks to its division into three: threader, fine fleecy thread and dental floss make a tape 70 cm long. 100 fleecy threads, precut. Each. PCC502

## Dent-O-Care Flossing Tape Extra Wide 100m

The extra wide filaments are designed to 'aplay' when in contact with the tooth. The floss is lightly waxed and shred resistant. Each. PAD050

## Glaxosmithkline Corsodyl Daily Expanding Floss

Helps to remove plaque for health gums and teeth. 12 x 30m. PCS026

## Oral B Satin Tape 25m

Oral-B Satin Tape provides advanced flossing action. Two-layered design provides superior strength. Satin-like finish is gentle on gums and fingers. Easy to insert, so you can reach even the tightest spots. Comfortable to handle, even when wet. Fresh mint flavour lets you know it is working. Pack 12. **PCO052**

## Oral B Oral-B Essential Floss 50m

Brushing alone can't get to all the hard-to-reach places where plaque builds up. Oral B Essential Waxed Mint Floss can. With its light wax coating and its shred-resistant texture, it slides easily between the teeth and below the gumline. It helps clean the tough-to-get plaque away. Each. **PCO040**

## Oral B Pro-Expert Premium Floss 40m

Slides easily to help prevent gum problems. Provides a minty cool feeling every time you floss. Mint. 40m. Pack 12. **PCO046**

## Oral B Satin Floss 25m

Satin-like texture. Comfort grip. Flossing action for a fresh clean feeling. Single-strand floss designed to resist shredding and breakage. Smooth, oval design for easy insertion between teeth, easy to grip even when wet. Oral-B Satin floss instantly feels different as it releases a burst of mint freshness on contact that lets you know it is working. Waxed - Fresh Mint 25m. Pack 12. **PCO053**

## Oral B Superfloss

Oral-B Superfloss is ideal for braces, bridges and wide spaces. 3 in 1 floss, ideal for braces, bridges and wide spaces. Stiffened end to floss under appliances. Spongy-floss to clean around appliances and in wide spaces. Regular floss to remove plaque under gumline. 50 Pre-cut strands. Pack 6. **PCO035**

## Oral B Glide Floss Picks

Oral-B Glide Floss Picks are easy to use and provide a more complete clean. They combine the silky-smooth texture of Glide floss with the ease of a pick. Glide Floss Picks slide more easily in tight spaces and effectively help remove plaque and food particles between teeth and just below the gum line vs. brushing alone. Shred resistant floss. Bag 30. **PCG108**

## Tepe TePe Dental Tape 5m

Strong, wide and flat tape, made of PTFE (Polytetrafluoroethylene). It glides easily between the teeth without shredding and is soft on the gums and fingers. It has a light wax coating which makes it easy to hold and fresh mint flavour. It fits nicely in your pocket or handbag thanks to its convenient size. Each. **PCT011**

## Wisdom Fresh Effect Mint Burst Floss - 30m

Expands to a soft fluffy thread during use that fills the gaps between the teeth for an exceptional clean. Delivers bursts of mint flavour to give your mouth a real clean and fresh feeling. 0.15% fluoride. Pack 6. **PCW030**

## Wisdom Wisdom ProFloss 50 Strands unflavoured

Appliance floss. Spongy area for cleaning around appliances. Stiffened ends for insertion. 50 strands. Pack 6.  
PCW040

## Wisdom Clean Between Easy Floss

Y Shape Harp/Handle. Long handled design allows easy access to back teeth. Pack 6.  
PCW010

## Wisdom Clean Between Flossers with extra strong floss

Clean Between Flossers. Designed not to shred, snap or sag. Bag 30.  
PCW020

## Waterpik Cordless Plus Water Flosser (WP-450)

PAW220

## Waterpik Ultra Waterflosser (WP-120UK)

The Waterpik Ultra Water Flosser features state-of-the-art water flossing technology and provides the ultimate in performance. Each.  
PAW224

## Waterpik Ultra Professional (WP-660)

Featuring a new compact and contemporary design, the Ultra Professional electric flosser includes on/off water control on the handle, an LED information panel, and 7 water flosser tips. New pulse-modulation technology provides maximum plaque removal (Floss Mode) and enhanced gum stimulation and improved circulation (Hydro-Pulse Massage Mode). The convenient one-minute timer with a 30-second pacer ensures thorough water flossing of all areas. Each.  
PAW226

## Waterpik Water Flosser Toothbrush Tips

With the Water Flosser Toothbrush Tip, you can brush your teeth and water floss at the same time! Use with toothpaste for an amazingly clean and refreshing sensation. Replace every 3 months. 2 Water Flosser Toothbrush tips per package (colour of tips may vary).  
PAW230

## Waterpik Orthodontic Tips

For orthodontic appliances, braces and dental work. Clinically proven to remove up to three times as much plaque as dental floss, the Orthodontic Tip is specially designed to improve gum health for orthodontic patients. The tapered head allows water to flow gently and effectively removes plaque around orthodontic brackets and wires. Replace every 3 months. 2 colour-coded Water Flosser tips per package (colour of tips may vary).  
PAW232

## Waterpik Pik Pocket Tips

The Pik Pocket Replacement Tip is specially designed to clean periodontal pockets and furcations. The soft rubber tip provides a gentle, low-pressure delivery of therapeutic rinses below the gumline. Clinically proven to access 90% of a 6mm periodontal pocket. Replace every 3 months. 2 colour-coded Pik Pocket™ tips per package (colour of tips may vary).

**PAW234**

## Waterpik Water Flosser Tongue Cleaner Tips

Are you looking for help with bad breath? The contoured shape of the Waterpik Tongue Cleaner sweeps away the bacteria and sulfur compounds on your tongue that can cause bad breath. Daily use can help prevent halitosis. Replace every 6 months. 2 colour-coded Tongue Cleaners per package (colour may vary).

**PAW236**

## Waterpik Water Flosser Classic Tips

Clean deep between the teeth and below the gumline where a toothbrush and dental floss will not reach. Easy to use and more effective than dental floss for improving your gum health. Replace every 6 months. 2 high-pressure Water Flosser tips for deeper cleaning (colour of tips may vary). Recommended for use with WP-450 Waterpik Cordless Plus Water Flosser.

**PAW238**

## Waterpik Plaque Seeker Tips

For implants, crowns, bridges and other restorations. Clinically proven more effective than dental floss for improving gum health, the Plaque Seeker Tip is designed to provide the benefits of pulsating water. It has three thin filament tufts to access stubborn plaque around implants, crowns, bridges, veneers, and other areas that are especially susceptible to plaque accumulation. Replace every 3 months. 2 colour-coded Plaque Seeker tips per package (colour of tips may vary).

**PAW240**

## Tandex Flexi Max Interdental Brush

Tandex Flexi Max is a specially designed interdental brush with an ergonomic grip. The flexible grip makes it easy to reach even interdental spaces in the back of the mouth. Tandex Flexi Max gives an efficient and gentle treatment for both teeth and gums. With five different sizes there are brushes to suit small interdental spaces or more complex bridge and implant spaces.

PAW088

## Wisdom Fresh Effect Dental Sticks

Ideal for removing plaque and food debris. Extra minty dental sticks with a triangular profile (as recommended by dentists) have been designed to effectively clean between the teeth and remove food debris after meals or whenever you need them. Mint flavour. Contains fluoride. Pack 12.

PCW050

## Tongue Cleaners

### Curaprox Tongue Cleaner

Tongue Scraper; single-bladed and double-bladed. A CTC tongue cleaner is amazingly successful against halitosis. Its anatomically correct shape reduces nausea and its effect can be seen and smelled. Success from the first time you use it.

PAC605

### Wisdom Fresh Effect Tongue Cleaner

Mint fragranced, anti-bacterial protection, soft rubber nodules for gentle removal of bacteria, small head for ease of use and comfort, rubber handle for maximum cleaning control. Pack 12.

PAW100

### Oral Care Tongue Scraper MC-4

The Tongue Scraper MC-4 is a new product designed with a soft ridged head that gently scrapes the surface of the tongue. The long handle and wide profile allows a good contact with the surface area which provides increased comfort to the patient. Box 25.

PAC660

### Oral Care Tongue Depressor MC-5

The Tongue Depressor is a safe replacement for the wooden tongue depressor, the long handle and wide profile allows a good contact surface for depression on the patient's tongue. Pack 25.

PAC661

### TePe TePe GOOD Tongue Cleaner

Designed to remove bacteria on the tongue to improve oral health and prevent bad breath. The design corresponds to the natural shape of the tongue, which reduces the gag reflex and makes it easier to reach far back in the mouth. The three, slightly raised cleaning blades give a triple-effect, meaning that bacteria is removed in one stroke. The tongue cleaner is dishwasher safe

PAT096

## Mouthwash

### Adams Chlorhexidine Gluconate

Chlorhexidine Gluconate Mouthwash is firmly established as the mouthwash of clinical choice. It is the proven, prescribed and recommended treatment for gingivitis and oral hygiene. Chlorhexidine Gluconate Mouthwash comes in two pleasant tasting flavours.

## Plak Smacker Ortho Travel Brush

This compact Travel Toothbrush is the perfect hygiene tool for patients on the go, as the brush's colourful case easily converts into a handle. Pack 72.

**PAP350**

## Curaprox Ortho Kit

Braces make oral hygiene considerably more difficult. Dangerous plaque accumulates in the numerous small gaps and inaccessible parts of braces. Bits of food and plaque get stuck on the brackets and wires, just like on and between the teeth. This is why food and plaque need removing properly at least once a day to prevent dental or gum diseases.

**PZS040**

## Plak Smacker Orthodontic Survival Kit

PZD020

## Opro Self-Fit GEN3 Gold Braces

The mouthguard's stretch zones allow it to fit almost any mouth and the wide open palate makes speech and breathing easy whilst the mouthguard is being worn. The easy to fit mouthguard has specially shortened fins which break down on moulding to provide a superior custom-fit inner channel and brace bumper.

Unique features of the Gold Braces mouthguard include:

- Patented Shortened Fins with unique brace bumper provide a highly retentive fit after moulding
- Fitting Cradle ensures minimum thickness of the bite surface and aids the fitting process. On removal provides unique air cushions for added comfort and protection
- Biomaster Antimicrobial Protection is proven to inhibit the growth of bacteria by up to 99.99%
- Dental Warranty up to £8,000 for added peace of mind
- Suitable for all contact sports

## GC Saliva Check Buffer Kit

GC's Saliva Check Buffer kit is divided into 5 different steps, the first 3 steps involving unstimulated saliva while the last 2 steps involve the stimulated saliva. As the functions and characteristics of these two forms of saliva are different, by evaluating both, the test results will become very useful diagnostic and powerful communication tools to the patients.

PNG000

## GC Dry Mouth Gel

Dry Mouth Gel is a unique, sugar free product designed to help relieve dry mouths and provide long lasting comfort and a soothing effect for patients. Uniquely, unlike most saliva substitutes, Dry Mouth Gel has a neutral pH, meaning that effective symptomatic relief can be provided, whilst preserving oral pH within the safe range to prevent demineralization. Pack 10.

Assorted Pack PHG200  
Raspberry PHG205

## Biotene Oral Balance Dry Mouth Replacement Gel

Long lasting moisture & comfort for dry mouths – gives protection for up to 5 hours. 40ml.

PEE100

## Oralieve Alcohol-Free Mouthrinse

Oralieve Mouth Rinse with Fluoride 500ml contains natural oral enzymes and fluoride to help supplement your saliva's defence systems.

PDE000

## Oralieve Moisturising Mouth Gel

A bio-active moisturising gel which mimics the action and feel of your own saliva. Provides hours of dry mouth relief and comfort from just one application and promotes fresh breath. Especially effective for night-time application and under dentures. Suitable for anyone suffering with dry mouth (Xerostomia), temporary or long term, whether due to medication, medical treatments, auto-immune disorders, mouth-breathing or seasonally-affected mouth dryness.

50ml PDE001  
70 x 12ml PDE006

## Oralieve Moisturising Mouth Spray

Used during the day, Oralieve Spray provides immediate relief from the unpleasant symptoms and effects of dry mouth (Xerostomia). This practical and discreet form of lubrication keeps your mouth feeling fresh, comfortable and moist in the same way as your own saliva. Apply as often as required. Recommended by physicians for use by anyone suffering with dryness of the mouth, temporarily or long term. Especially helpful for hay fever sufferers and mouth breathers. 50ml.

PDE002

## Oralieve Ultra Mild Toothpaste

Oralieve Toothpaste contains the same natural enzyme system which, in saliva, protects your mouth from the bacteria which can cause plaque-build up and ultimately lead to dental caries. Formulated without foaming agents which are known to be harmful to oral mucosa, this toothpaste cleanses, protects and freshens the mouth without burning or stinging. Especially recommended and prescribed for anyone with a reduced immune system, with a temporary or longterm lack of saliva or with a sensitive mouth.

75ml PDE004  
70 x 12ml PDE005

## Oralieve Nourishing Lip Balm

Oralieve Nourishing Lip balm helps provide natural hydration and intensively moisturise your lips. Suitable for anyone with dry, cracked or flaky lips. 20 x 10ml.

PDE007

## Purple Orchid Multi Oral Spray

Multi Oral Spray treats and prevents dry mouth and the related problems such as bad breath, excessive plaque formation and irritated mucosa. It alleviates irritations, conditions the tissues and optimises the oral flora. Natural, safe and harmless when swallowed. 50ml.

PEP000

## Purple Orchid Multi Oral Remident

Remineralizes teeth & optimizes oral flora (bacterial balances). The bio-active gel is based on the patented 2QR-complex. This natural substance is derived from plants and consists of bio-active molecules called polysaccharides. Natural safe and effective. 30ml.

PEP002
